

Analysis Results

In the event of tandale floods rizky how many road by ana might be flooded?

Roads	Length
Temporarily closed (m)	1,144
Unaffected (m)	848
Total (m)	1,993

Road Type	Temporarily closed	Unaffected	Total
Path (m)	1,047	414	1,462
Other (m)	97	433	530
Total (m)	1,144	848	1,993

Action checklist

- ✓ Which roads can be used to evacuate people or to distribute logistics?
- ✓ What type of vehicles can use the unaffected roads?
- ✓ What sort of equipment will be needed to reopen roads & where will we get it?
- ✓ Which government department is responsible for supplying equipment?

Notes and assumptions

- Roads are said to be inundated when in a region with field "FLOODPRONE" in "YES".
- Numbers reported for road lengths have been rounded to the nearest meter.
- Roads marked as not affected may still be unusable due to network isolation. Roads marked as affected may still be usable if they are elevated above the local landscape.
- Roads are closed if they are affected.
- Roads are open if they are not affected.
- The extent and severity of the mapped scenario or hazard zones may not be consistent with future events.
- The impacts on roads, people, buildings and other exposure elements may differ from the analysis results due to local conditions such as terrain and infrastructure type.
